ASKSYSTEM
A REDSHIFT SOLUTION

ATLANTIC FAMILY DENTAL · TEAM MEETING

One Team.
One Passion.
One Path to Success.

One rhythm to grow, check in, and see how we're doing, together.

Align · **Shift** · **Keep**

TODAY

Our agenda

1. Technology check-in: everyone fills the monthly check-in
2. Welcome and department updates
3. What the team told us in this month's check-in
4. Follow-through from Thursday's session
5. October numbers & goals ahead
6. Celebrations, wins & next steps

Align attitude • Shift actions • Keep results

ALIGN · WHY WE'RE HERE

Caring • Curiosity • Coachability

Caring	Curiosity	Coachability
for our patients & each other	ask, learn, get better	turn feedback into action

Our focus never changes: **standards of care** and a **consistent patient experience**.

“Every patient gets the opportunity to experience the best of what AFD has to offer, every time.”

TEAM WELCOME

Welcome

Quick round, how's everyone doing? Then let's talk as a team.

ICEBREAKER

What is one thing at work you have been guessing about that you could simply ask?

TECHNOLOGY CHECK-IN · FIRST 10 MINUTES

Fill in your monthly check-in, together

1. **Open the check-in page** on your phone or an office computer.
2. **Answer every question** honestly. It is about our system, not about you.
3. **Stuck?** Raise a hand. A teammate or the facilitator will help you right now.

theasksystem.com/team/check-in/

Quick show of hands after: how comfortable did the technology feel, 1 to 5?

No one is behind. Helping each other with the tools is part of the work, and what we learn guides what we simplify.

DEPARTMENT SNAPSHOTS

Each team, a quick update

Front Desk	**2 min**
Hygiene	**2 min**
Dental Assistants	**2 min**
Doctors / Coordinators	**2 min**
The A Team	**2 min**

Wins, what's working, what needs help, the usual monthly snapshot from each department.

TEAM CHECK-IN · NOVEMBER ROUND

What the team told us, highest to lowest

How I showed up
I brought my best this month: caring, curious, coachable, and I can point to real moments.

FILL LIVE

What I did with feedback
The last feedback I got, I did something about it within the week.

FILL LIVE

My wins
I know what a good week looks like in my job, and I'm having them.

FILL LIVE

The people leading
The people running this place live the same values they ask of me.

FILL LIVE

Being heard
When I raise a problem, something actually happens.

FILL LIVE

Staying
I can see myself here a year from now.

FILL LIVE

TO BE FILLED LIVE FROM THE TEAM > CHECK-INS BOARD

Scale 1 to 5, average of the team's own answers. Small sample, so read it as a direction, not a verdict. Team picture only.

FOLLOW-THROUGH · 10 MINUTES

Gaps in our system, not gaps in people.

Thursday we named real things: chores, supplies, sterilization flow, and schedule timing. The work now is follow-through.

Pick up your piece. Tell us early if you are stuck.

Celebrate in public, correct in private. Raising a concern is always welcome.

FOLLOW-THROUGH

What we agreed Thursday

1. **Chores by treatment suite.** We use the existing checklist, and each assistant owns assigned rooms.
2. **Friday huddle review.** We check chore completion together. The monthly check-in scores it too.
3. **Supplies.** A reorder minimum for each item, and a weekly inventory list that goes to the person who reviews it.
4. **Sterilization.** We test the flow with paper markers before any equipment moves.

FOLLOW-THROUGH

Who owns what

Dental assistants

Assign daily room responsibilities, check chore completion at Friday huddles, process instruments fully and correctly.

Hygiene team

Set supply reorder minimums and share the inventory list on the agreed weekly days.

Doctors & leaders

Support your groups, keep Friday huddles and the monthly check-in on the calendar, and join the sterilization prototype.

Everyone: raise operational questions in huddles. Owners and review dates for each measure are TO CONFIRM.

FOLLOW-THROUGH

Try the sterilization flow on paper first

1. **Map dirty to clean** with paper markers on the counter.
2. **Walk it** through a real day before moving anything.
3. **Then decide** what equipment moves, if any.

Success looks like a smoother workflow, less blame, and time saved. Exact numbers are not set yet.

Discuss: where does work pile up for whoever is free later?

LAST MONTH · OCTOBER 2026 · KEEP

Our team scoreboard

TO CONFIRM
TREATMENT ACCEPTANCE
not in the reports yet

October collections are the five providers' collections added up ($211,673.70); the practice-wide total is to confirm. Collection rate = that sum divided by gross production. Add-ons, on-time and treatment acceptance were not in the October reports, so they are to confirm. New patients 97 and referrals 14 come from the October monthly report.

ADD-ON SERVICES · OCTOBER 2026

Add-ons: what we added on

TO CONFIRM

CURODONT

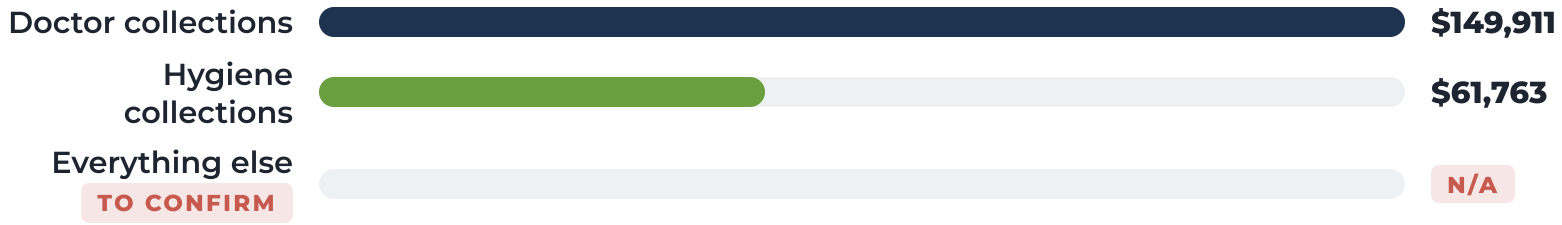

TO CONFIRM

ARESTIN

October add-on figures were not in the reports we received, so they stay to confirm. Goal for add-ons is not set yet.

WHERE THE MONEY CAME FROM · OCTOBER 2026 · KEEP

The month, three simple buckets

$211,674

TOTAL COLLECTED

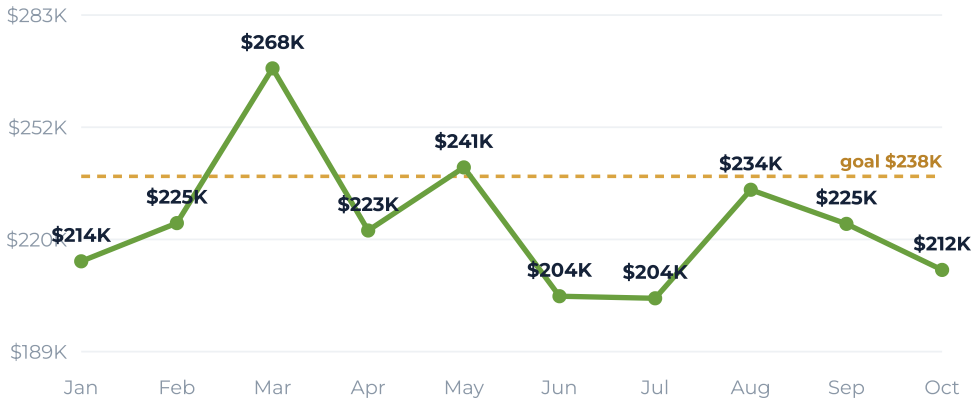

89% of $238K goal

Everything else: TO CONFIRM. The October report lists collections by provider only. The practice-wide total, and any collections outside the five providers, were not in the files we received.

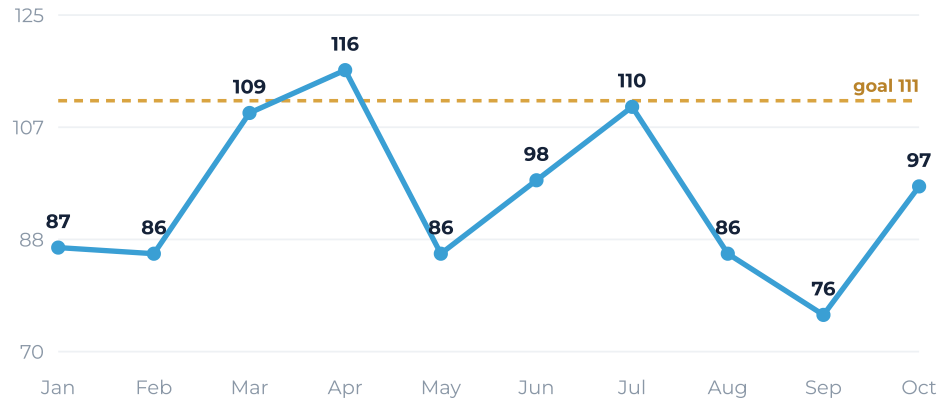

TRENDS · JAN TO OCT 2026 · KEEP

Where we're trending

Collections / month

New patients / month

Jan to Sep as shown last month. October is the sum of the five providers' collections from the October monthly report (practice total to confirm). New patients Oct 97. Dashed line = goal.

BY TEAM · OCTOBER 2026

How each team is tracking

Doctors (2)

Production	**$195,342**
Adjusted	**$159,405**
Collections	**$149,911**

Hygiene (3)

Production	**$83,813**
Adjusted	**$78,007**
Collections	**$61,763**

TO CONFIRM Figures are team totals added up from the October monthly report. The practice-wide collections total and the aging reports (receivables) are still being reviewed.

Source: October Monthly Report. Goals for comparison: dentist production $190K, hygiene production $75K base and $90K high.

YEAR TO GOAL · 2026 · KEEP

Our climb to the annual goal

YEAR TO DATE

$2,249,073

ANNUAL GOAL

$2,856,000

Hit the annual goal, the team earns a team cruise. 🚢

We're 79% to the annual goal and 83% through the year. Our gap is $606,927, about $303,463/month the rest of the year closes it. We just have to keep working on hitting goal, every month, together.

THE MONTHS AHEAD · SHIFT

$190K
DENTIST PRODUCTION

Consistency is how we get there. The SOPs we tighten this quarter show up right here next month.

Your morning huddle, on the screen

One quick form each morning, and the huddle dashboard is ready when you walk in: today's numbers, the schedule, everything the team needs to start the day.

Lives on your phone, one form, someone enters the numbers, the schedule photo gets uploaded, tap to view. Goals are already set, no guessing.

A sample screen, not final, tell us what you'd want on it

CELEBRATIONS & NEXT STEPS

What we are proud of, and what is next

Celebrate

A fuller, more consistent hygiene schedule. 97 new patients in October, up from 76. Doctor production above the $190K goal.

This month

Chores by suite reviewed at Friday huddles. Reorder minimums set and the weekly inventory list shared. Sterilization paper prototype.

Next check-in

We fill it together at the start of the next meeting, and we keep helping each other with the tools.

Celebrate in public, correct in private.
